

### Notice of flood in Thailand

We, KAWASUMI LABORATORIES, INC. hereby announce the effects of flooding in Thailand on our group manufacturing company, Kawasumi Laboratories (Thailand) Co., Ltd. as below.

#### 1. Situation

The production activity at Navanakorn factory has been suspended in consideration of the safety of our employees since October 13<sup>th</sup>.

On October 17<sup>th</sup>, floodwater has started to flow into Navanakorn Industrial estate and an evacuation has been ordered by Thai National Relief Operations Centre for all workers and people living in Navanakorn Industrial estate.

In order to prevent floodwater into our Navanakorn factory, sandbags and drainage pumps have been used. However, the increase of water level is beyond our control, then all our employees have evacuated from our factory.

At present, the schedule for recommencement of production of Navanakorn factory has not yet been determined.

Korat factory located in Nakhon Ratchasima province continues its operation since there has been no damage from flooding.

#### 2. Financial effect

An announcement will be made promptly in the event that a material impact is anticipated on consolidated financial results of the Kawasumi group.
